BEGINNER LEVEL - ONLINE

September 23 | **6:00pm - 7:30pm** | **Zoom**

For healthcare providers who are new to AI scribes. Learn the fundamentals of using Heidi Health in clinical practice, including privacy, security, patient consent, hardware and software setup requirements, note creation, document generation, introduction to templates, introductory Heidi Evidence features, and available Doctors of BC QI cycle supports.

ADVANCED LEVEL - IN PERSON

November 18 | **6:00pm - 8:30pm** | **SND Division Office (212-5455 152 St.)**

For healthcare providers who have been using Heidi Health (or another AI scribe) for a few months. Build on your experience with advanced templates, documentation workflows, Heidi Remote, advanced Heidi Evidence features, workflow optimization, a refresher on privacy, security, and patient consent, and opportunities to further enhance practice through Doctors of BC QI cycles. **Includes a complimentary dinner and opportunity to network with colleagues across medical communities*

Questions? *Contact Megan Shymanski megan.shymanski@snddivision.ca or Meghan McCrea mmccrea@wrssdivision.ca*

**These sessions are part of a pilot education series designed to support healthcare providers in the safe, effective, and efficient use of AI scribes in clinical practice. The Surrey–North Delta and White Rock–South Surrey Divisions of Family Practice do not endorse any speakers or companies participating in the AI Scribe Education Series.*
